

Sport Data Challenge

A collaboration between Amsterdam Data Science, Sport Data Valley, Running 20/20 and Le Champion.

Are you interested in all the incredible ways sport data can be used? Do you want to help people run faster and run smarter? Or are you interested in the small details that have the biggest impact on competition day? Join us for the very first Sport Data Challenge for a chance to show off your data skills and win amazing prizes.

Programme

Data

How? Thanks to Le Champion.

- Various running events
- Multiple years
- Runner information
- Fun details such as shoe brand
- Distance/time intervals
- Type of runner (e.g. amateur)

Example Challenge Questions

"What is the impact of bad weather and how can the organisation react?"

"What does it take to run the Dam tot Dam Loop in less than two hours? Can a speed analyses help?"

We have limited places available so register NOW via the [QR code](#) or <http://bit.ly/sportdatachallenge>.
Once registration closes we will be in contact with more information.
